Our PROFILE

The main objective of the Adarsh Institute of Information Technology Organization (AIITO) is to provide a better life and make them self reliant by encouraging children and women in remote areas with education and employment education. our priority will be to educate and educate the people by promoting technical education along with Indian culture and culture. This is because technical education plays an important role in human resource development of the country by generating efficient collective power, increasing industrial production and improving the quality of life of the people.

It will be our moral duty to respect the spirit of encouragement and stimulus that contributes to education and technical education. our goal is to develop education and provide technical education in the lives of people living in remote mountainous areas and provide them with livelihood tools to connect with the mainstream of the country's development. For this short term camps will be organized and certificate courses will be given.

Adarsh Institute of Information Technology Organization is a private autonomous organization with self-financing. we provide training and certification of skills and vocational courses for the sole purpose of employing candidates in the private sector. The institute does not in any way guarantee the acceptance of its certificates / diplomas by any government department or others and no claim can be filed against the institute for non-acceptance of its certificates / diplomas by any government department or others.

This is a small step in determining your participation in Skilled India, but with a sincere and meaningful effort with a transparent mindset, we will continue to make every effort to make it a landmark. Under the scheme Anganwadi, Early Childhood Education etc. courses will be run. Courses in Computer Operations, DTP, Tailoring, Handicraft, and Small Scale Industries will be run under Skills Based Course. In addition, special attention will be given to vocational courses - health work, social work, community health work, arts and crafts etc.

Adarsh Institute of Information Technology Organization has taken the initiative to encourage local entrepreneurs to set up institutions to impart vocational training to students for their skill development and management is completely non-political. Franchise learning centers that will provide quality job-oriented technology and vocational and strive for continuous growth in management processes. The top management of Adarsh Institute of Information Technology Organization is constantly striving to provide new opportunities to its centers as well.

Adarsh Institute of Information Technology Organization specializes in computer software and hardware graphic designing, web designing, web development, computer application, finance and accounting, office automation, computer teacher training, employment, Skills, business and management and entrepreneurship development.

Quality Certification ISO 9001: 2015 by the renowned international organization "UASL, England, UK"

- ✓ Appointment assistance to clever students passing through AIITO Center.
- ✓ Continuous support and advice from experts relating to good marketing and management techniques..

PROCEDURE FOR TAKING FRANCHISE

Procedure for taking franchise:

The study center should be centered on the main location of the area. The center should have separate class room, computer lab and reception / office room. The center should have proper ventilation, fire safety and proper lighting. Block and sub-block level centers do not have the above infrastructure but should have a generally clean environment.

AIITO will abide by the terms and conditions followed by the organization. Courses will be run in accordance with the rules and syllabus prescribed by AIITO. The processing charge will be credited by the AIITO organization in advance to the non-refundable affiliation charge.

This amount will be credited at the time of signing the Affiliation Agreement.

Step – 1. You can send the request by e-mail or apply the application form from the web site www.aiito.org.in and send it to the main branch.

Step – 2. Attach the following documents to the franchise application form.

1. Photo identity proof of the Center Director.
2. Address proof of the Center Director.
3. Qualification proof of the Center Director.
4. One photograph of the Center Director.
5. Registration certificate of the center by the organization, if already existing (This does not apply in case of opening a new center).
6. Photographs inside and outside of the center.
7. The Center Director will have to provide photo identity proof of the faculty.
8. The Center Director will have to provide the address proof of the faculty.
9. The Center Director will have to provide proof of the qualification of the faculty.

Step – 3. The franchise can pay the affiliation charge through a valid internet transfer by sending the franchisee's application along with the documents mentioned in step no.2 at the AIITO main branch along with the payment of the first affiliation charge.
